Summary

A unique combination of advanced accounting, marketing and sales experience

I am a degreed accountant and specialize in setting up, implementing, transforming and managing Sage 50 Peachtree sites throughout the country. I love working in a dynamic environment with a product that can solidly deliver accuracy, control and results. I picked Sage 50 Peachtree because the product delivers sophisticated, but flexible features and incredible scalability at a surprisingly reasonable cost of ownership.

"I've been using Peachtree for over 15 years. I knew I was not using it to its full potential. I found Suzy and 121 Business Software Consulting. In a very short time and at minimal charge she has reduced my workload by at least 25%." Sherry / Austin, TX

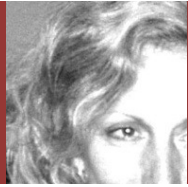

Specialites

- Sage 50 Peachtree set-up, implementation and management projects for start-ups and emerging companies with sophisticated processing and financial reporting needs.
